**JOINT RECOMMENDATION WITH THE CHIEF ADMINISTRATIVE OFFICER THAT
YOUR BOARD, ACTING AS THE GOVERNING BODY OF THE FLOOD CONTROL
DISTRICT:**

1. Find that the project is categorically exempt under the California Environmental Quality Act Guidelines in accordance with Article 19, Section 15301 (e)2, and under Class 1 (g)3 of the County of Los Angeles Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987.
2. Establish Capital Project 67925 for the Pickens Yard Improvement Project and approve a total project budget of \$257,000 (Enclosure A).
3. Approve an Appropriation Adjustment (Enclosure C) in the amount of \$257,000 to establish an appropriation for Capital Project 67925 in the Fiscal Year 2003-04 Flood Control District Capital Project Budget.

4. Adopt plans and specifications for the construction of the Pickens Yard Improvement Project at an estimated construction cost between \$102,546 and \$141,000 and instruct the Executive Officer to advertise for bids to be received and opened on September 16, 2003, in accordance with the "Instruction Sheet for Publishing Legal Advertisements" (Enclosure B).
5. Authorize the Director of Public Works to carry out the project and delegate authority to the Director of Public Works or his designee to manage the construction of the Pickens Yard Improvement Project on behalf of the Flood Control District and to award and execute consultant agreements, supplements, construction contracts, and change orders related to this project within the same limits delegated to the Director by your Board for County projects.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Pickens Yard is a Flood Control District maintenance subyard located at 4628 Briggs Avenue, La Crescenta, and it serves the foothill areas near Glendale, La Canada-Flintridge, and the unincorporated area of La Crescenta City. The existing office building, built in 1973, is undersized for operational needs and is not compliant with Americans with Disabilities Act and Title 24 Regulations.

Approving these actions will allow Public Works to construct an 882-square-foot office addition to provide expanded office space, an ADA compliant restroom, and an ADA access ramp. Following receipt of bids, scheduled for September 16, 2003, we will return to your Board for construction contract award.

Implementation of Strategic Plan Goals

These actions are consistent with the County's Strategic Plan Goals of Fiscal Responsibility and Organizational Effectiveness as this project is an investment in public infrastructure and will allow Flood Control District to provide services in a more cost-effective manner.

FISCAL IMPACT/FINANCING

Public Works' fair construction cost estimate for the project is between \$102,546 and \$141,000. The total project cost, including plan check, construction, consultant services, miscellaneous expenditures, and County services, is estimated at \$257,000. The Project Schedule and Budget Summary are included in Enclosure A.

The project is funded by the Flood Control District. Sufficient appropriation will be available in Fiscal Year 2003-04 to fund this project following your Board's approval of the enclosed Appropriation Adjustment (Enclosure C). The Appropriation Adjustment will transfer \$25,000 from Services and Supplies Appropriation and \$232,000 from Other Charges Appropriation of the Fiscal Year 2003-04 Flood Control District Fund Budget to the Buildings and Improvements Appropriation of the Pickens Yard Improvement Project (C.P. 67925).

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

A standard contract, in the form previously approved by County Counsel, will be used. The standard Board-directed clauses that provide for contract termination, renegotiation, and hiring qualified displaced County employees will be included.

As requested by your Board on August 12, 1997, and as a threshold requirement for consideration for contract award, bidders will be required to attest their willingness to consider Greater Avenues for Independence Program/General Relief Opportunity for Work participants for future employment.

The project specifications contain provisions requiring the contractor to report solicitations of improper considerations by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, of the Safely Surrendered Baby Law and that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

Bidders will also be required to show full compliance with Los Angeles County Code Chapter 2.200 (Child Support Compliance Program) and Chapter 2.203 (Contractor Employee Jury Services Program).

ENVIRONMENTAL DOCUMENTATION

The proposed project has been reviewed and determined to be categorically exempt under the California Environmental Quality Act Guidelines in accordance with Article 19, Section 15301 (e)2, and under Class 1 (g)3 of the County of Los Angeles Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987, as the project involves expansion of an existing structure. A Notice of Exemption will be filed with the County Clerk.

CONTRACTING PROCESS

The design services were performed by Public Works staff and funded by Flood Control District funds.

Advertising for bids will be in accordance with the County's standard "Instruction Sheet for Publishing Legal Advertisements" (Enclosure B).

Following receipt of bids scheduled for September 16, 2003, we will return to your Board for construction contract award.

As requested by your Board on February 3, 1998, this contract opportunity will be listed on the "Doing Business with Us" website.

Participation by Community Business Enterprises in the project is encouraged through Public Works' Capital Projects' CBE Outreach Program and by monitoring the good faith efforts of bidders to utilize CBEs.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

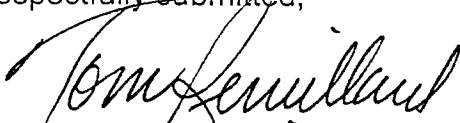

The project will have minimal impacts on current services at this facility. During the 90-day construction period, scheduled to begin in October 2003, temporary restroom facilities will be provided while the existing restroom is being upgraded.
